Dear Mr. Brewster,

Left two birds at your Museum the other night which were taken by Geo. A. Minin of Arlington and wish you would make returns to him whatever you think they may be worth to you as he has been expecting great things in regard to the price of yellow rails. Would gladly give them to you if I had taken them myself but thought I would let you know how matters stood. Yours very truly
John Hardy.

Dear Mr Brewster,

Hope you will excuse my delay in writing you but have expected to see Mr. Minn every day and he finally came in Sat. night and was more than pleased with the returns which you sent. I'm asking him more definitely about the locality where the birds were taken find that it was on the Bedford side down river (northeast) from your camp. The rail was taken on the edge of the

lagoon back of the island
to the meadow north of
Camp West and the ridge
on the edge of the river
near the Barbic bridge.
Am sorry if I informed you
wrong at first about the
rail but when some people
say down river they mean
up so it is hard to tell.
Hope to be able to send
you a Concord specimen
this fall.

Yours ever truly
John A. Hardy Jr.

Dear Mr Brewster.

As luck
would have it received a
♂ canvas back from Plymouth
today shot yesterday and am
having that made into a
skin for you. Also a ♀ blue
scaup that was shot on
Concord River yesterday &
will find out the place
though I know it was not
far from your camp. Hope
I have not taken too much
liberty in going ahead in
the matter.

Yours very truly
John Hardy.

Dear Mr Deane -

Awfully sorry
you have been put to so
much trouble on account
of those ducks and can't
understand why Webster
didn't see them as the
work he has ever done for
me has been perfectly
satisfactory can give you
dates any way.

Have seen Webster & he says he
has seen & will make it right

Would have made the
bids up myself but was
more than busy when
they came in. Hoping
the affair will be
straightened out soon.

Yours sincerely
John Hardy.
